

How Our Full-Service HR Outsourcing Works

Managing employees can be time-consuming and challenging – but we can make it easier. LandrumHR is a Professional Employer Organization (PEO) that offers small business owners the attention to detail and a range of services that might be confusing and time consuming to those who go it alone. From HR services and payroll to health insurance, benefits, and assuring compliance with employment laws and regulations, we offer a comprehensive array of services to help you protect and grow your business.

Build Shared Employer Relationships

Employees are the greatest asset of any company. We partner with you as a co-employer, assigning you an experienced HR manager who will build a relationship with you and your employees to help give you the workforce needed to succeed. By letting us take care of your day-to-day human resources needs, you have more time to focus on the core revenue-generating aspects of your business.

I just wanted to say I'm so humbled to work with a great customer service team like all of you. I would have never received this type of service at ADP. Thanks, again.

Krista Brodbeck, CUHRCP

As the CEO of a member owned financial cooperative, staff satisfaction and career development are incredibly important to me. The internal service we provide translates to how we treat those that bank with us. We have worked with LandrumHR for several years, and their HR knowledge, benefits support, and payroll systems have helped us to continue to develop programs that continue to support our team through the challenges presented by evolving HR regulation, the evolution of motivational techniques, and keeping up with current benefit programs.

Mike Akers, Bay Credit Union

I explain LandrumHR to many as Suwannee River Federal Credit Union's umbrella. They protect and shield us by providing employment / employer / regulatory compliance and support through any situation that our credit union has had. I am content and confident under their umbrella because I know LandrumHR is taking care of any and all of our employment and benefit needs. And taking care of our employees needs and concerns as well. I highly recommend any employer to step under this umbrella and breathe the sigh of relief of being "out of the weather" and placing your trust in this agency.

Susan Cundiff, Suwannee River FCU
