

Full-Service HR Outsourcing

How Our Full-Service HR Outsourcing Works

Managing employees can be time-consuming and challenging – but we can make it easier. Landrum HR Solutions is a Professional Employer Organization (PEO) that offers small business owners the attention to detail and a range of services that might be confusing and time consuming to those who go it alone. From HR services and payroll to health insurance, benefits, and assuring compliance with employment laws and regulations, we offer a comprehensive array of services to help you protect and grow your business.

Build Shared Employer Relationships

Employees are the greatest asset of any company. We partner with you as a co-employer, assigning you an experienced HR manager who will build a relationship with you and your employees to help give you the workforce needed to succeed. By letting us take care of your day-to-day human resources needs, you have more time to focus on the core revenue-generating aspects of your business.

Landrum has been good to us. I was pleasantly surprised by the responsiveness of all the team members and their willingness to always hop on a call to chat things out with me. It has provided our credit union a sense of peace because we know that although we are small, we have an entire team of HR professionals that have our back.
